**Student name:** \_\_\_\_\_

**Teacher:** \_\_\_\_\_ **Class:** \_\_\_\_\_

Working in pairs, answer the following questions:

What essential resources do people *need* to live?

What resources do people *want* to use and own?

How are needs and wants different?

What waste is created when people buy or consume things?

What happens to the waste created by consumerism?

How might this waste affect living things on our planet?

How can people reduce these effects?
